SUMMARY

I am a passionate Computer Science graduate seeking an entry-level role to apply my skills in programming, web development, and databases. Eager to learn, I aim to grow with emerging technologies and deliver innovative, efficient solutions in the IT industry.

WORK EXPERIENCE

Software Development Intern, Bluestock

May 2025 - Jun 2025

- Completed internship as a Software Development Engineer (SDE) at Bluestock Fintech, gaining practical experience in software development and engineering practices.

Web Development Intern, Skill Dunia

Apr 2023 - Nov 2023

- Managed project timelines, reducing delivery times by 30%.
 - Spearheaded the adoption of cutting-edge engineering software, improving project accuracy by 15%.
 - Collaborated with cross-functional teams, enhancing project success rates by 10%.
-

PROJECTS

Image Based Bird Species Identification using CNN

May 2024 - Jul 2024

- Developed a CNN model using Python and TensorFlow to classify bird species from images. Achieved high accuracy through data preprocessing, augmentation, and deep learning techniques like convolution, dropout, and batch normalization. Evaluated performance using precision, recall, and F1-score.

Applying ML Algorithms For The Classification Of Sleep Disorders

Mar 2025 - May 2025

- Designed a machine learning system to classify sleep disorders using patient data. Applied algorithms like SVM, Random Forest, and KNN. Performed preprocessing, feature selection, and evaluated models using accuracy, precision, recall, and confusion matrix for optimal performance.
-

EDUCATION

Computer science in Bachelor of Technology

Sep 2021 - Jul 2025

Indur institute of engineering and technology, CGPA : 7.0

CORE SKILLS

- Java, Core Java , Html, Css, Sql, Java full stack , JavaScript , ReactJs, Spring, Hibernate, Problem solving , Team management , Decision making , Communication
